There's no time like the present to discover the past!

Do you want to be part of an established and exciting museum that brings history to life for tens of thousands of guests each year? If you can provide guest-centred service that is second to none, and contribute to the friendly, welcoming atmosphere at Kings Landing, then you'll be right at home.

Kings Landing is an open-air museum situated along the Saint John River. It is home to a 19th-century village full of costumed characters, farm animals, and 70 historic buildings offering workshops, gift shops, educational programs, children's summer camps, unique culinary experiences, and more.

The Kings Landing Corporation respectfully acknowledges the territory in which it stands as the ancestral homelands of the Wolastoqey, Mi'gmaw and Peskotomuhkati peoples.
